

The **PGA REACH CNY Women's Clinic** returned to **The Pompey Club** on Thursday, July 23, 2026. Building on the success of the inaugural session held in 2025, this year's clinic continued its mission to grow the game of golf among women—the fastest-growing demographic in the sport.

The day was specifically designed to provide a relaxed, informative, and social environment for women of all skill levels, from beginners to experienced club champions.

The program ran from 10:00 AM to 3:00 PM, focusing on building foundational skills and applying them on the course.

The event featured a dedicated team of PGA Professionals who volunteered their time to support the women's golfing community. The instructional staff included:

- **Joe Tesori, PGA**
- **Joe Tesori Sr., PGA**
- **Dylan Plis, PGA**
- **Brittany Wowelko, PGA**
- **Martha Wells, PGA**

The day concluded with a **Happy Hour at Brian's Landing** in Jamesville, starting at roughly 3:15 PM. This social hour allowed participants and instructors to connect one last time, share insights from the day, and enjoy a complimentary drink together.

Guided by the **PGA WORKS** mission, the clinic aims to engage underrepresented groups in golf. By providing a day filled with "lessons and laughter," PGA REACH CNY continues to foster a lasting community of female golfers in Central New York.

For those looking to continue their progress, upcoming women's events include the **Women's AIM Championship** and the annual **Women's Fall Championship** at Oneida Community Golf Club.

Thank you to Stan Gorman at the Pompey Club for their generous support of this event.
