

BlueGolf TM Club - Feature Updates

<u>Item</u>	<u>Details</u>
MANAGE GOLFERS	
Golfer Directory	The Golfer Directory (formerly Member Directory) has been enhanced to include a master roster of members, Guest List golfers and tournament participants. Any non-member that played in a tournament is considered a tournament participant. Filters added to enable organizers to search All Golfers, All Categories and All Groups.
Edit Player Names	Ability to edit (non-member) golfer names within a tournament.
Course Handicap Calculation	Set handicap calculation method to Course Handicap or Handicap Index.
Player Types - Specify Handicaps	Ability to specify handicap by player type (e.g Gender) and the ability to specify max Handicap Index or max Strokes.
Post Scores for Non-Members	Update score posting to also post non-member players with valid handicap IDs.
Save Default Tee for Golfers	The tee last played is now saved for each golfer at each course. Saves a default tee at multiple courses for each golfer.
Default Tee by Gender	Default Men's and Women's tees added for each course. Saves each club's default tees by gender for each course. The defaults are saved when a tournament is added and used each time the course is played.
Contest Name Characters	Added the same character cap on both setup and leaderboards to achieve consistency in contest naming.
Max Field Size	Increased to 300. Previously 144.
Update Member Indexes	Auto update of all member indexes. Building support via USGA's Webhooks API which will completely automate the updates.
Score Entry Memory	Score entry will use recognize last used history (vertical / horizontal)
Golfer / Member Search	Enhanced Instant Search functionality including ability to search golfers and members within Categories and Groups.
Player Types	Eligibility filter for individual contests. (e.g Filter certain players to be eligible for individual skins).
Member Categories	Ability to set up Member Categories and assign each member to a category.
Member - Mass Edit	Ability to mass edit member data.
Update Genders	Ability to update gender for golfers who are not also a member on the player edit screen.
Date of Birth Requirement Removed	Remove Date of Birth requirement for adding new members / tournament participants. Applies to programs that do not utilize Age based Divisions.
Date of Birth Edit	Ability to edit a member's Date of Birth within TM.
Custom Tees	Setup and manage custom tees. Assign golfers to custom tees.

Score Entry - Front / Back Nine	Admins can choose to enter just front nine and back nine scores.
Score Entry - Total Scores	Admins can choose to enter just the total score.
Show Detailed Handicap Calculation for Each Golfer	Display details as to how a golfer's handicap was calculated. Visible to tournament participants and admins.
Max Playing Handicap	Set the Max Playing Handicap for each contest.
Show Handicap ID's for Each Golfer	Handicap ID is now visible to Admins, for each golfer, on multiple pages where member / player data is displayed. Only visible to Admin users.
Clear Test Scores (Single Golfer)	Clear a golfer's scores in one click. Added to the scorecards edit screen.
Clear Scores (All Golfers)	Clear scores for All golfers at once.
Member Invite	Invite removed for TM.
Quick Access to Actions	Multiple updates to Actions on both the detail page and members / golfers pages.
Player Import	Import golfers via CSV. Automated team and pairings creation via import.
Handicap Lookups - As of Date or Lowest Index within Range	Update handicaps from WHS. Choose from As of date or Lowest Index within range.
Handicap Score Posting	Post tournament scores to WHS.
Tee Time Edit	Edit Tee Time after registration in My BlueGolf.
Drag and Drop - Player Handicaps	Display player handicap within drag and drop
Score Type Options - Posting Scores	Ability to select score type when posting scores from a tournament.
REGISTRATION	
Golfer - Instant Add	These performance enhancements enable golfers to be instantly added in one click. Save time when adding several players.
Multiple Entry Fees	Configure multiple tournament entry fees. Ability for golfers to select and pay appropriate entry fee.
Custom Registration Forms	Add custom fields to the registration forms.
Copy Players	Copy players from one tournament to another. Send (optional) registration confirmation email.
Tee Time Selection	Options to enable Tee Time selection during registration and afterwards in My BlueGolf.
Canceled Players	Canceled players shown on the Golfers manage page. Filter to view a list of all golfers who are canceled.
Cancellation Deadline	Option to configure cancellation deadline within each tournament.
Max Field Size & Waitlist	Online Registration Settings will include a Max Field Size. Registrations beyond the limit will be automatically added to the Waitlist.
Add Golfers w/o Email Address	Quickly "Mass Add" golfers without an email address. Same functionality that is in 360.
Registration - Eligibility Pending	Option to have golfers sit in a pending status until staff approves their entry.

Entry Order	View entry order for each golfer on the Golfers manage page and sort by entry order.
GL Code	Enables each club to have their own GL Code. Passed to Stripe. Enables accounting by club.
Team Registration	Options to enable Partner selection during registration and afterwards in My BlueGolf. Partner Lookup supports adding member and non-member partners.
TEAMS	
Generate Teams	Support added for the ability to Generate Teams in a variety of methods including ABCD , Index , Random , Year to Date Scoring Average .
Blind Draw	Option to 'Assign Blind Draw' when Generating Teams. Randomly assigns a golfer to each team that is not full.
Team Match / Interclub	Team Captain's Portal management features in My BlueGolf. Robust feature set.
Team Score Entry	Setting to enter a single team score.
Teams Add / Manage	Enhanced Add and Edit Teams pages. Much easier to manage tournaments with a large number of teams.
Multiple Teams	Added support for golfers to be on multiple teams.
Partner Edit	Edit partner(s) after registration in My BlueGolf.
Team Types	Eligibility filter for team contests. (e.g Filter certain teams to be eligible for team skins).
Team Roster / Handicap Report	Team report with options to display team combined index / handicap and flights.
Drag and Drop - Auto-update Team Name	Auto-update team name when using drag and drop.
Live Scoring (Single Team Score Entry)	A single score is entered for the team. The official score is kept by a single golfer. The scorecard can be changed.
Generate Teams from Pairings	Option to create teams from pairings. Create teams and pairings in one step.
PAIRINGS	
BlueGolf TV - Pairings	Added an option to show Pairings screens for each round.
Add Pairing	Ability to add a single pairing for both tee time and shotgun starts.
Generate Slots	Generate Pairings Slots option added for shotgun starts.
Shotgun Selection	Default selected holes and B Hole priority based on field size and other options.
Reverse Shotgun	Pairings setting. Reverses the display of holes for the shotgun.
Copy Pairings	Option to copy over the pairings from a previous round.
Pairings Label	Change Pairings Card label to "Pairings & Starting Times."

Pairings Add	Stop players from automatically being added to pairings when registered into the tournament.
Clear Scorecard (Pairings)	Clear Scorecards menu option on pairings page.
Generate Slots - Multiple Blocks of Times	Select end time when generating pairings slots. Create blocks of tee times to edit via “drag and drop” or player tee time selection.
SCORECARDS & REPORTS	
Scorecard Labels	Labels contain each golfer's name, starting time / hole. Choose a style (3 styles) and a layout (2 layouts). Option to indicate the first unused label.
Printable Scorecards - 333, 666, 999.	Printable scorecards to support handicap strokes for 333, 666, and 999 contest formats.
Printable Proximity Cards	Generate printable proximity sheets for Longest Drive and Closest to the Pin contests. Sized for use on markers.
Save Printable Scorecard Settings	The most recently used scorecard settings are now saved. Certain settings are saved at the tournament level (e.g “print handicap dots”) while others are saved across all tournaments (e.g “highlight starting hole”).
Pairings - Alpha Report	Pairings & Starting Times report sorted alphabetically. Generate PDF or export to CSV.
Pairings - By Start Time - 2 Column Report	Pairings & Starting Times report sorted by start time. 2 column format. Support for index/playing handicap and/or club affiliation. Generate PDF or export to CSV. CSV includes custom columns. Direct replacement for frequently used GG report.
Pairings Report	Option to page break Pairings By Starting Time report after each starting time change. Useful for double shotgun.
Printed Scorecards - Multiple Tees	Option to display all tees being used by golfers in the group on printed scorecards.
Member Roster Report with Flexible Customization	Generate a report of members. Customization options include email, mobile, address, date of birth, handicap ID, gender columns. Generate PDF or export CSV.
Tournament Player Roster Report with Flexible Customization	Generate a Player Roster. Customization options include Index, Index / Course hcp, Starting hole, BGID, Custom 1, Custom 2. Generate PDF or export to CSV. CSV includes custom columns. Custom 1 and Custom 2 enable user to enter the column titles (e.g. Lunch Paid). Option to print the roster by By Flight.

	Provides Admin's with a simple way to generate a wide variety of reports.
Golfer Initials Column on Printed Scorecards	Added each player's initials prior to hole #10 on the scorecard. Each tournament has its own set of text or list fields.
Hole By Hole Scores Report	Report showing each golfer's score on each hole. Includes Out, In, Total. Generate PDF or export to CSV.
Stroke Allocation Report	Report displays each golfer's PH, tee and number of strokes (dots).
Player Roster - Option to Show Playing Handicap	Option to include golfer's Playing Handicap on a Player Roster report.
Standard Scorecards	Multiple additions to the Standard Scorecards, including: • Playing Handicap column setting • Highlight Start Hole setting • Allow for printing of cards for each player or each pairing within the full field. • Allow printing of Blank cards • Removal of Tee selection and Handicap % fields (TM)
Scorecard Settings	New settings when generating Standard scorecards. Settings include: • Hide Marker score row. • Move Marker score row row to the top of the scorecard. • Adjust Marker position • Adjust margins • Hide perforation line
Scorecard App - Show Leaderboard Button	Provides one tap navigation from the Scorecard to Leaderboards and back.
Omit Strokes on Scorecards	Option for "No Strokes" which will show no dots on the scorecard.
Show Playing Handicap on Scorecards	Added Playing Handicap to the name and switched to a short name when they had one to save space.
Design Custom Scorecards in TM	Club staff can design custom scorecards. Standard 18 hole or 9 hole templates available.
Custom Scorecards Copy	Viewed shared and custom scorecards.
Print Leaderboards for All Contests	A 'Print All Contests' option was added to the Print Leaderboard.
COMMUNICATION	
Enhanced Results Email	Add a "Leaderboards" section to the bottom and show a list of every contest with each contest linked to the leaderboard for that contest.
Disable Automated Emails	Following emails have been disabled and will no longer be sent (as of Monday 2/14/22). • Cancellation processed, refund issued • Standings Updated • Tournament Reminder

Email Editor + Files	Ability to customize email subject and content including formatting and adding links or an attachment.
Results Email	Send tournament golfers a Results email. Options to include additional custom text, top finishers in select contests, send per round, preview Results email before send.
Email Codes	Ability to email golfers BGID check-in codes.
Email character count increased to 2,000	Count increased to 2,000 characters.
Control of the Round Results Email	Choose when to send golfer results emails. Options include Always, Never, or Only when Digital Scoring is used. Golfer is only ever notified when the score is entered on the day of or day after the event regardless of settings. This means they are never notified when test scores are being entered before the tournament.
Email Golfers in a tournament	Emails of up to 1,000 characters can be sent to tournament participants.
Email Golfers Formatting	Emails support carriage returns.
Email Members	Support added to Email Members. Emails can be filtered to All members, Men only or Women only.
Tournament Result Emails to All Members and Tournament Participants	Send results to all golfers in this tournament. Email options include: • Add custom message • Choose up to 3 contests for display in email • Option for Players to Show (Top 3 finishers or all players) • Include a link to all Leaderboards in email • Send Results to all members
Control of Registration Approved Email	Choose when to send registration approved emails. Options include Always, Only when a player registers or Never. The Registration Acknowledgement email is no longer sent from TM.
FLIGHTS	
Flight by Scoring	Option to flight by previous round score.
Flights & Contests	Automate contest creation for tournaments using Flights.
Flight Distribution	Ability to flight by handicap index or playing handicap with both automatic and manual distribution.
Drag and Drop - Flight Filter	Drag and Drop players / teams within Flights.
CONTESTS/FORMATS	
Advanced Flex	Any number of Format 'Rules' can be added. Each Rule can specify which holes the format applies to, which balls to count and the playing handicap calculation for those holes
Ringer (Eclectic)	Configure a multi-round tournament that results in one 18 hole score per player or team.

Change Contest Name	Added ability for admin to change contest name after contest has been awarded.
Manual Contests Results	Display only scored players on the leaderboard (e.g. Long Drive).
Points and Purse for CTP, LD, & Manual Contests	Award Points & Purse for Closet to the Pin, Long Drive and Manual contests.
Gross / Net Bias	Award two contests together and choose whether or not the player / team receives the higher of points or purse.
Eagles, Birdies, Deuces, Treys (aka Points based contests)	Customization enables any hole score or better to be used to calculate results.
Lone Ranger	Foursome format. Count the Lone Ranger's ball as well as the best ball of the other 3 players.
Gross + Net	Determine the number of gross and net scores to count. Setting to 'Always Count Low Gross'.
Callaway	The Callaway handicap is used to calculate a net score for the round.
6-6-6	Two person team game. (e.g. First 6 holes, 1 best ball, second 6 holes Alternate Shot, last 6 holes two person Scramble).
3-3-3	9 hole contest. Select format for 1-3, 4-6, 7-9.
9-9	18 hole contest. (e.g. Front 9: 1 best ball, Back 9: 2 best ball).
Average of Teammates	Count average of team score for each hole.
Scramble Contest	Format to enable users to more quickly set up a Scramble contest.
Alternate Shot / Foursomes Contest	Format to enable users to more quickly set up an Alternate Shot / Foursomes contest.
Throw Away Scores Setting	Option to discard away the worst number of holes on the front 9, back nine and / or all 18 holes.
Scores to Count Setting	Option to indicate which scores (e.g. lowest and highest) on the team to count for each hole or the round.
Point Quota Contest	Earns points and tries to beat his/her quota (target or goal).
Pick 9 / Pick Par Contest	Pick 9 holes. Format will enable flexibility to select any number of each par to count (e.g. one par 5, two par 3s and six par 4s).
Criss Cross Contest	Match a hole on the front nine with a hole on the back nine. Compare scores and choose the better of each pair.
Ringer Contest	Best score posted on each hole during multiple rounds is added up for one 18-hole score total.
Ringer - Best Front 9 & Back 9	Ringer format where the best front nine and back nine scores are taken.
Aggregate Skins	Calculate skins results across multiple rounds.
Flex Score Contest Replacement for Advanced Balls.	Format will enable user to choose the # of balls to count on each hole (or by par). Option to include 0 to the # of players on each team. Provides support for many of formats shared, including: • 5&4

	• 6-6-6 • 6-6-6 BB, Alternate Shot, Scramble • Mutt and Jeff • T&F • ONES • Odd Holes Only • Even Holes Only
