Members of the Southern Texas PGA,

I am writing to express my intention of running for an At-Large position during this election cycle. After being named Assistant Golf Professional of the Year for the STPGA and receiving encouragement from my mentors, I believe this is an excellent time to seek this role in hopes of providing better service to our members. As a young, 2-year member of the PGA, I am passionate about promoting member engagement and ensuring all our members have a voice. I have already made a meaningful impact, not only for Southern Texas, but also for the PGA of America. In 2022, I began serving on the STPGA Member Services Committee and the National PGA Education Committee, roles I continue to hold. Over the past two years, this committee work has given me valuable insights into what our membership desires, such as fostering a tighter community, sharing best practices, and organizing educational events such as the coaching and teaching summit and annual meeting.

My goals would be to increase member participation in educational outings and tournaments, as well as to develop a stronger network among our chapter members. I plan to achieve this by actively soliciting feedback through surveys and direct outreach, ensuring our members feel heard and involved. If elected, I am confident I can leverage my committee experience to better serve our members by incorporating their feedback and ideas into the educational outings and other initiatives for our section. I believe I have the necessary skills, experience, and most importantly the passion to serve and represent the best interests of the STPGA.

The STPGA has had a profound impact on my life, and I would be honored to give back by making a positive difference for our members. I am eager to apply my passion for member engagement to this role and help strengthen our section.

Sincerely,

Kayla McFall, PGA, MHM
Assistant Golf Professional
