CHAMPIONSHIP ELIGIBILITY REQUIREMENTS

(Updated January 15, 2025)

The following is information that any person desiring to participate in a championship conducted by the Wisconsin State Golf Association must be aware and adhere to prior to entering and/or participating. It is the responsibility of each participant to know the rules and policies that govern all WSGA championships.

Entries are open to all amateur golfers with a WSGA/USGA Handicap Index that does not exceed the maximum limits posted on each championship website, who are active members (i.e., members of or affiliated with a WSGA member club), who meet the established eligibility requirements for the respective championship **and meet either the Connection Eligibility or Commitment Eligibility requirements as defined below.** The WSGA reserves the right to accept, decline or withdraw an entry at any time.

CONNECTION ELIGIBILITY REQUIREMENT

In the current calendar year, the player has met **one (1)** of the following:

1. The player is a resident in Wisconsin.
2. The player owns or leases a dwelling located in Wisconsin.
3. The player's principal place of employment is in Wisconsin.
4. The player has a driver's license issued by the state of Wisconsin.
5. The player is a current student who attends a high school, college, or university located in Wisconsin.
6. The player previously attended a high school, college, or university located in Wisconsin.
7. The player is a student who attends a high school, college, or university in another state, but has maintained his or her permanent residence in Wisconsin.
8. The player is a graduate of a high school, college, or university located in Wisconsin.

COMMITMENT ELIGIBILITY REQUIREMENT

In the current calendar year, the player has not played in any other state's (USGA Allied Golf Association) multi-day amateur championship and commits to the WSGA that for the remainder of the current calendar year, the player will not play in any other state's multi-day amateur championships.

Qualifying round(s) for any other state's multi-day amateur championship is considered part of that specific championship. A player who attempts to qualify for another state's multi-day amateur championship is ineligible for WSGA multi-day championships.
